SUBJECT: INFORMATION ON THE SKILLED NURSING FACILITIES LOCATED

NEAR KEIRO SENIOR HEALTHCARE FACILITIES SITES

This is in response to a motion by Supervisors Solis and Ridley-Thomas on April 12, 2016 instructing the Department of Public Health (DPH) to provide information on skilled nursing facilities located within a five-mile radius of Keiro Senior Healthcare facilities, the ability of these facilities to address the multiple language needs of residents, and the current evidence base and best practices related to social and community needs of seniors.

## Skilled Nursing Facilities Located Within a Five-Mile Radius and Their Ability to Meet the Multiple Language Needs of Residents

As requested, the Health Facilities Inspection Division (HFID) identified a list of skilled nursing facilities (SNFs) that are within a five-mile radius of Keiro Senior Healthcare Facilities. Each SNF was contacted and asked the following questions regarding their capability to serve Japanese-speaking residents: (a) *Do you have staff who are able to communicate with Japanese-speaking residents?* (b) *If no, can you arrange for a Japanese interpreter?* Responses are summarized in the table below.

## **Current Evidence on Social and Community Needs of Asian American Seniors**

Health disparities associated with cultural and social barriers among Asian Americans have been described in the literature. To ensure the provision of effective care and client satisfaction, findings from several studies suggest that long-term care providers should incorporate meaningful consideration of the cultural traditions, language differences, and religious beliefs of residents they serve into their healthcare practice. To example, the availability of bilingual social workers and nurses may mitigate client fears of social isolation related to language barriers. Other suggested practices may include: increasing the availability of ethno-specific nursing homes; connecting residents by language in mainstreamed nursing homes; providing client access to interpreters; hosting 'culture specific' activities; catering to dietary needs by offering traditional foods for some meals; and providing training workshops to staff in order to increase awareness about the cultural issues among the elderly residents they serve. These tailored strategies, which

Each Supervisor May 31, 2016 Page 4

recognize cultural needs, can help elderly residents maintain their sense of identity and have positive impacts.
